St. Petersburg Polytech is now a partner of BSUIR

On February 15, 2022, the Agreement on Academic and Scientific cooperation between the Belarusian State University of Informatics and Radioelectronics and Peter the Great St. Petersburg Polytechnic University (Polytech) was landed.

A number of bilateral official meetings and signing the Protocol of Intentions preceded the Agreement with Polytech.

University

The new partner of BSUIR has the status of the National Research University and takes the third place in the international ranking "Times Higher Education World University Rankings 2022" among the universities of Russia.

The cooperation between the universities will be directed towards the implementation of educational as well as scientific projects. During 2022, in the form of internship, it is planned to send BSUIR Master student to Polytech. It is also planned to exchange leading specialists and lecturers.

The organization of joint international scientific and practical conferences is also possible. In perspective, joint research projects in the spheres of nanotechnology and nanomaterials will be initiated, including those funded by the Belarusian Foundation for Fundamental Research and the Russian Science Foundation in the frames of joint scientific and technical project contests.
