Republican Clinical Medical Center is a new partner of BSUIR

On March 9, 2022, the signing of the Cooperation Agreement between the Belarusian State University of Informatics and Radioelectronics and the Republican Center for Medical Rehabilitation and Balneotherapy (hereinafter referred to as the Center).

Cooperation would be directed towards implementation of joint projects in the sphere of biomedical engineering, creation and implementation of devices, systems and technologies for medical purposes, as well as to facilitate the development of the industry laboratory "Medical-purpose devices, systems and technologies", created at BSUIR.

The Center provides modern diagnostics, ambulatory treatment, and medical rehabilitation. Moreover, the new partner of the University is a leading institution of the Republic in providing help to patients with various endocrine system pathology.

It is planned to conduct various joint events, preparation and implementation of joint scientific and research programs and projects, as well as issuance of joint scientific publications and monographs. It is also expected that the cooperation would open new educational possibilities for Bachelor, Master, and Ph.D. students of BSUIR like participation in project implementation, internships and practices, research on the topics of a Ph.D. dissertation on the basis of the Center.
