BSUIR and National Traffic Exchange Center signed a Memorandum of Cooperation

The National Traffic Exchange Center and the Belarusian State University of Informatics and Radioelectronics signed a Memorandum of Cooperation. At the meeting the cooperation was discussed between the representatives from the Organization and Rector of the University Vadim Bogush, including Vice-Rectors for Education Victor Rybak and Evgeni Shneiderov.

One of the main goals of cooperation is education. There is a need to create educational courses on new developments in the sphere of digitalization.

Vadim Bogush highlighted, that BSUIR is ready to participate in the creation of educational content for e-learning systems. Moreover, the expert practitioners from the National Traffic Exchange Center can be involved in teaching activities.

On their behalf, the National Traffic Exchange Center is ready to provide jobs for young professionals.
