## BSUIR held a conference “Quality of Educational Process: Challenges and Ways of Development”

On April 26 on the basis of the Military Faculty of BSUIR an International Scientific and Practical Conference “Quality of Educational Process: Challenges and Ways of Development” was held. In the scientific forum educational and scientific establishments of Belarus and Russia took part.

In the frames of the conference educational establishments of higher education exchanged experience in the field of practice-oriented training quality improvement. The training quality in military education was also discussed.

Acting Head of the Military Faculty Leonid Utin opened the plenary session with a report “Modern Approaches to Improve the Control of Students’ Knowledge Using Electronic Educational Resources”. Moreover, the participants discussed factors that influence education quality in military education establishments, as well as the problem of relevance and lag of education from science, etc.
