## VIII International Scientific and Practical Conference “Big Data and Advanced Analytics” was held at BSUIR

May 11-12, VIII International Scientific and Practical Conference “Big Data and Advanced Analytics” was held at BSUIR. At the conference, the studies and achievements of possible BIG DATA solutions for IT, business, and production as well as BIG DATA implementation in medicine and education were discussed.

More than a hundred reports were introduced at the conference. Among authors there were scientists, young specialists, as well as students from Belarus, Russia, the USA, Great Britain, Uzbekistan, Kazakhstan, Vietnam, and other countries. As it was mentioned by the Member of the Organizing Committee, Deputy of the House of Representatives Sergey Dik, the majority of the reports were made by young specialists, who play an important role in the development of new directions in the scientific field covered at the conference.

The scientific forum was opened with a welcoming speech from the Chairman of the Organizing Committee of the conference, Rector of BSUIR Vadim Bogush.

A welcoming speech was also delivered by Hu Bo, Deputy Director of Ltd. "SINOMACHBEL", Deputy Head of the Contact Department of the Zhongguancun Science Park in Belarus, members of the organizing committee from the UK and the USA, representatives of the embassies of Russia, Kazakhstan, and Uzbekistan in Belarus. After the Grand Opening the participants began introducing their reports.

On May 12 the event continued and included 3 sections. The reports on the topics "BigData and AI" and "BigData in marketing and e-commerce" were introduced at BSUIR. Daria Lymoreva, Translator of Ltd. "SINOMACHBEL", Specialist of the Contact Department of the Zhongguancun Scientific Park in Belarus introduced the report on the topic "Zhongguancun Science Park and SINOMACH "Torch" Park: New Opportunities for Development of Innovative Science and Technology Cooperation between Belarus and China". The section "BigData of 3D Objects and "Imaginative" Internet Idea" was organized at the United Institute of Informatics Problems of the National Academy of Sciences of Belarus.
