## Summary

### International specialized exhibition "BELAGRO-2022"

"BELAGRO-2022" took place on June 7-11, 2022 at the Exhibition Center of the Belarusian and Chinese Industrial Park "Great Stone".

At the exhibition BSUIR introduced innovative developments in the field of unmanned control and remote monitoring of vehicles, as well as new functional material production technologies.

JSC "Lida Electricals Factory" showed an interest to the introduced developments. It was agreed that a delegation from BSUIR would visit the factory in order to get acquainted with the production and discuss the possibility of introducing thin heating elements, developed at BSUIR, into the factory's products.

Based on the results of participation in the exhibition, BSUIR was awarded a diploma.
