BSUIR delegation took part in the IX Forum of Regions of Belarus and Russia

The IX Forum of Regions of Belarus and Russia “The role of interregional cooperation in deepening the integration processes of the Union State” took place in Grodno on June 30- July 1, 2022.

At the Forum business platforms were present. The platforms were divided into 6 thematic sections. The IV Forum of Belarusian and Russian Higher Education Establishment Association was held. The main discussion topics were scientific potential integration of Belarusian and Russian higher education establishments, implementation of joint scientific and technical projects and programs, as well as academic cooperation.

Pitirim Sorokin Syktyvkar State University (Syktyvkar, Komi Republic) became a new partner of the University.

At the exhibition, BSUIR had its own stand, at which the following exhibits were shown: vector network analyzer, absorbed power wattmeter, low-altitude radio altimeter for unmanned aerial objects, multimedia e-education resources in the BSUIR e-learning system, and equipment in the field of information security.
