## Summary

### International Medical Form "BELARUSMEDICA 2023"

BSUIR took part in the International Medical Form "BELARUSMEDICA 2023" on May 23 - 26, 2023 in Minsk, Belarus.

The forum gathered industry professionals from different countries. This year, there were more than 190 exhibitors from Belarus, Hungary, India, China, Russia and other countries.

At the exhibition, the university presented:

- portable cavitometer;
- ultrasonic dispersant;
- ultrasonic generator;
- a set for formation of plasmonic coating for delamination of biofilms from the surface of teeth and dental crowns;
- plasmonic substrates for high-precision analysis of liquid media and a kit for their formation.

Photos from the exhibition are below.
