

## Summary

### International Industrial Exhibition "INNOPROM-2023"

BSUIR participated in the International Industrial Exhibition "INNOPROM-2023" Ekaterinburg, Russian Federation, July 10-13, 2023.

The collective exposition consisted of educational services, scientific and technical developments of the university:

- portable cavitometer;
- non-contact vibrometer;
- ultrasonic dispersant;
- channelless ion beam neutralizer;
- flat heating elements based on aluminum.

During the exhibition, the BSUIR stand was visited by representatives of more than 20 companies, universities, as well as members of the government of the Republic of Belarus and the Russian Federation.

Negotiations were held with representatives of business and government agencies of the Russian Federation, interested in purchasing scientific and technical products of BSUIR. A protocol of intentions was concluded with LLC SPE "Motor Technologies", a project with the company "Pantes" (RF) was discussed.

BSUIR was awarded a diploma for active participation in the international exhibition and contribution to the development of the scientific sphere.
