of Informatics and Radioelectronics**
R&D Department

Summary

International Specialized Exhibition for Machinery Industry and Metalworking "Kazakhstan Machinery Fair"

BSUIR took part in the International Specialized Exhibition for Machinery Industry and Metalworking "Kazakhstan Machinery Fair" on May 10-12, 2023 in Astana, Kazakhstan.

At the exhibition, the University was represented by Igor Vrublevsky, Technical Sciences, Associate Professor. The exhibits were:

- technology for manufacturing energy-saving flat aluminum heating elements;
- technology for the production of optical composite coatings for solar collectors;
- technology for manufacturing films for information protection displayed on monitors, displays and indicator panels.

According to the results of the exhibition BSUIR was awarded with a diploma.
