

Summary

XI International Exhibition of Arms and Military Machinery "MILEX-2023"

BSUIR took part in the 11th International Exhibition of Armaments and Military Equipment "MILEX-2023", which was held on May 17-20 at the address of Minsk, Pobediteley Ave., 111 (Minsk Arena).

The International Exhibition of Armaments and Military Equipment MILEX is the largest thematic exhibition in the Republic of Belarus and one of the largest in the Eastern European region. It is held every two years since 2001. The geography of exhibitors is constantly expanding, which testifies to its relevance and effectiveness, as well as to the growing interest.

At the exhibition the university presented :

- software and hardware complex for formation and reception of microwave signal;
- 140 GHz radio altimeter and low altitude radio altimeter for unmanned flying objects;
- absorbed power wattmeter M2-MVM-;
- meter of complex reflection and transmission coefficients P4-MVM-;
- signal generator G4-MVM-;
- speech information protection device "Priboy";
- locator for detection of unauthorized information gathering devices;
- radar detector of buried objects;
- software and hardware complexes for ensuring electromagnetic compatibility of radio electronic means.

BSUIR was awarded a diploma for active participation in the international exhibition and contribution to the development of the scientific sphere.
