## Delegation of the Vietnam Academy of Science and Technology was met at BSUIR

On September 23, the Belarusian State University of Informatics and Radioelectronics was visited by representatives of the Vietnam Academy of Sciences and Technologies.

At the event, BSUIR Rector Vadim Bogush and VAST Vice President Le Truong Giang discussed the educational programs of our university and the Vietnam Academy of Sciences and Technology. Moreover, they discussed the international and scientific activities of BSUIR. Vadim Bogush noted that our university is proud of the training of scientific personnel and numerous joint scientific research with representatives of friendly countries.

The delegation also included: Director of Graduate University of Science and Technology Vu Dinh Lam; Director of Institute for Tropical Technology Tran Dai Lam; Director of high technology research and development Nguyen Tien Dat; Head of Department of Tropical Biochemistry and Environment, Institute for Tropical Technology Pham Thi Lan; Deputy Head of Department of Administration, Institute for Tropical Technology Vu Xuan Minh; representative of the Institute for Tropical Technology Le Dang Quang. They expressed gratitude for the training of highly qualified specialists who successfully cope with the tasks set during their work in Vietnam.

The meeting saw the discussion of not only the current projects, but also the directions for the development of future cooperation. At the end of the event, a memorandum of understanding was signed between BSUIR and the VAST University of Science and Technology.
